

APPLICATION

Whether you're looking for a low- or high-speed surface aerator, a floating mixer, flocculant preparation station, powder, liquid, or both, TMI has the rugged, high-performance equipment you need for monthly hire.

BENEFITS

- Significant cost savings on plant that will be used for a limited period.
- The product can be tested «live» in a new process.
- Practical solution for mobile facilities.
- Hire-purchase may be available from the start.

Type	Polymer	Volume (L)	Tank dimensions			
			Length	Width	Height	Overall height
C2703P	powder	300	1200	800	785	1595
C2705E	emulsion	500	1200	1000	860	1690
8510P	powder	1000	2220	1460	-	1495
